SOCIETY

Chairman:	Ivan Ip	L.6B
Vice-Chairmen:	Chan Ching Bun	L.6B
	Kevin Sum	L.6C
Internal Secretary:	Bendix Li	L.6B
External Secretary:	Peter Ng	L.6B
Financial Secretary:	Matsuta Ng	L.6B
Honourable Designer:	Marcus Lam	L.6C
Teacher Advisers:	Mr. K.B. Ching	
	Mr. W.Y. Yip	
	Mr. K.K. Ip	

Mathematics Society, was established in 1991 with the main aims of arousing students' interest in mathematics, and strengthening the mathematics atmosphere in the school.

Team of our school. Result of the competition are:

1 st	Wong Weng Tong	F.4E
2 nd	Yen Tsun Yin	F.4E
3 rd	Choi Lai Hong	F.4E
4 th	Li Hoi Shun	F.4E
5 th	Lai Hiu Fung	F.4E

Through the lecture, students understood that mathematics is not just a game of numbers.

Recruitment Week

In October, our club began recruiting members. We set up a store in New Hall to introduce the activities that we planned. Over 125 members were recruited and we were delighted to see their enthusiasms.

Mathematics Journal

There was a breakthrough of Mathematics Society in this year as we have published an issue of colour-printed Mathematics Journal. It included club news, interesting games, special articles and paradoxes. As one of their many privileges, this was given to all members free of charge.

External Activities

This year our chairman was elected as the Director of Competition Department of Hong Kong Joint School Mathematics Society. In March, our Mathematics Team has entered the final event of Hong Kong Mathematics Olympiad. They had also captured the 1st Runner Up in the Joint School Mathematics Quiz organized by Chong Gene Hang College, and entered the final event in the Inter-school Mathematics Competition organized by Joint School Mathematics Society held in late May.

Tutorial Class

We organized tutorial classes from November to April to help students to cope with problems in Mathematics. It was held on every Monday and Thursday during lunch time for Form 1 to 3 students. In addition, we have also tutored several Form 4 students to take part in inter-school competitions.

Green and White Day

Our society has set up a stall in the New Hall during the Green and White Day this year. The main theme was Illusion and boards about Impossibilities, Double Images, Fractals and works of M.C. Escher were displayed. There were also interesting mathematics games and IQ puzzles. The stall attracted a lot of visitors and the responses were encouraging.

Conclusion

This year, we were glad to see the success of activities held. We would like to express our sincere thanks to our teacher advisers and our principal Rev. Brother Thomas for their invaluable help.

Josephians' Mathematics Olympiad

This year we have organized for the first time a competition of this kind. The aim was to select the top students in Mathematics to be the members of the Mathematics

Lecture

An open lecture about probabilities was held in late April in the Audio Visual Room, given by our teacher adviser Mr. K.B. Ching.
