

# 135th Anniversary

## Mathematics Society

### **Chairman**

Alvin Ng F.6B

### **Vice Chairman**

Kevin Lai F.6B

Andrew Kwok F.6B

### **Internal Secretary**

Michael Wong F.6C

### **External Secretary**

Victor Tse F.6A

### **Financial Secretary**

Hubert Hui F.6B

### **Publication Secretary**

Sunny Lai F.6C

### **Math Director**

Ronald Choy F.6C

### **Teacher-in-charge**

Mr. K.B. Ching

### **Introduction**

Through organizing various interactive activities, we aim at demonstrating how interesting and joyful learning mathematics can be.

### **Annual General Meeting**

The Annual General Meeting was held on 13th November. In the meeting, details of the various events that would be organized in the year were introduced. We also offered a

“Q & A Section” for eager members to have a deeper understanding about our coming events.

### **Subsidiary**

### **Recruitment**

Targeting at Form 3 and 4 students, we successfully recruited 40 students in late September as manpower support in future activities.

### **Committee**

# Clubs

## Recruitment Week

Strategic promotion plans consisting of an attractive notice board and 100 persuasive posters prepared beforehand proved to be most useful in gaining publicity during the Recruitment Week. We successfully recruited 56 students during the 5-day-long campaign.

## Revision Class for Half-Yearly Exam

A Revision Class for the Half-Yearly Exam was conducted on 7th December in the AV Room for members. The purpose of the class was to assist and guide members in tackling challenging math problems which they might encounter during the exam.

## 135th Green and White Day

On the Open Day, our stall area was divided to 4 sections: Introducing the Maths Society, mathematical games, sale of souvenirs and exhibitions.

## Maths Contest

Held on 24th May, 2010 after school in Classrooms 2A and 2B, this competition was open to F1 and F2 students. Contestants were required to tackle 8 problems within 15 and 20 minutes respectively. The Maths Contest was designed to provide a chance for participants to explore new methods of mathematical thinking and reinforce their ability to solve mathematical problems.

## Mathematics Games

A total of 4 games were introduced this year. These games included The Tower Of Hanoi, The Toothpick Game, The Disorder and Colour Match. A short description was placed beside each game as a guide to amateurs.

## Rubik's Cube Competition

The competition was held on 27th April, 2010 during lunch time in the ITLC. This was the 2nd Rubik's Cube Competition held by the Mathematics Society. Combining logic with dexterity, Rubik's Cube was a fad embraced by many Josephians.

## Conclusion

Special thanks should be given to our Supervisor Brother Thomas, our Principal Mr. C.H. Leung, our Teacher-in-Charge Mr. K. B. Ching, Teacher advisors Mr Y.K. Ng, Mr. W.Y. Yip and Mr. Joseph Wong, as well as our Mathematics Society Ex-Cos and Sub-Cos. All of the above contributed much to this year's success.
