MATHEMATICS SOCIETY
INTRODUCTION

The SJC Mathematics Society was established in 1991 and has long been successful in promoting the joy of exploring Mathematics and giving training to mathematics enthusiasts and talents throughout these 25 years. Our aim is to broaden the horizons of students in Mathematics. The Society has engaged in numerous activities which include consistent regular training, recruitment days, Internal Selection Tests and publishing Maths journals etc... In the second term, we will organize a stall in the Green and White Open Day. It consists of a mathematical maze and a corner where visitors can answer challenging mathematical questions. Moreover, Maths Week will be held in April. It consists of different Maths activities such as a Sudoku competition.
