

MATHEMATICS SOCIETY

Our first issue of 'Mathematics Journal' was published

Having the aims to promote Mathematics in our school and arouse students' interest in the subject, the Mathematics Society has organized various functions of different natures in this academic year. Being the second year after the establishment of the society, we consider this year a successful year.

Our committee board was set up in early September. This year, we were delighted to have recruited more than 120 members.

With preparatory work of more than a month, we helped the students to purchase scientific calculators at a bargaining price. All the calculators are sealed with 'HKEA APPROVED' and thus reducing the work load of the school authority helping students to have the

calculators sealed. At the end, more than 200 calculators were sold.

Besides offering a bargain price of calculators, we also released our first issue of 'Mathematics Journal'. This first issue published for all the students was to introduce calculators, the coming three issues were published seasonally for members only. In the Mathematics Journal, we academic materials but also some interesting mathematical topics and games, which aimed at making Mathematics a more interesting subject.

In order to arouse the students' interest in Mathematics, besides publishing the Mathematics Journal, we also display some mathematical games on display board — Mathematics

Teacher Advisers:

Mr. C. H. But
Mr. P. Ching
Mr. S. R. Hsieh
Mr. C. H. Leung

President:

Tin Ying Kit, Allen 6B

Vice-President:

Kwok Yat Fai, Cyril 6B
Lui Sze Ming, Atkin 6B

Internal Secretary:

Ho King San, Sunny 6C

External Secretary:

Chow Chung Mo,
Valence 6B

General Secretary:

Rockson Wai 6B

Financial Secretary:

Augustine Chin 6B

Art Designer:

Johnny Yip 6B

Chief Tutor:

Wong Ming Yip,
Wallace 6B

Personnel Officer:

Brian Chung 6B
Chan Ka Tai, Victor 6B
Davidson Wan 6B

Student Adviser:

Tony Tam 7B

Corner.

We also assisted the junior form students to cope with the problems they encountered in Mathematics by organizing tutorial classes from January to April. The response was quite satisfactory and we believed that this function could really help the students.

On the fifth of March, a talk on the topic of 'Construction of Circle' was held in the Lecture Room by Mr. S. R.

MATHEMATICS SOCIETY

Hsieh, our teacher adviser. It was highly appreciated by our students and attracted more than 60 participants.

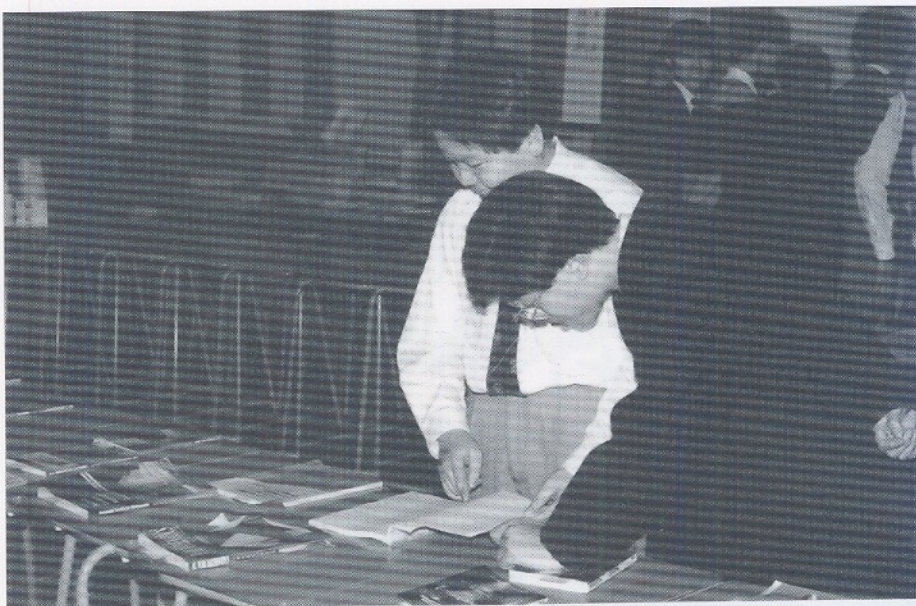

Apart from the above functions, we have also joined the Electronics and Computer Society to co-organize the Mathematics and Computer Week in mid-January. Boards concerning Mathematics were displayed in the hall. A book stall displaying books Mathematics and Computer was set up in the hall. Moreover a Speed Calculation Contest '93 was organized for Form 1 to Form 3 students. The contestants' speed of calculating arithmetics was challenged as well as their logical and mathematical mind. Furthermore, a Mathematics and Computer Quiz was organized at that meaningful time.

Externally our society has participated in the Joint School Mathematics Society. Our president had been elected as the Chief Director of the Proper Planning Organizing Committee of the society. We have also participated in the various functions organized by this society such as Mathematics Contest, Walkathon and Annual Ball.

Finally, we would like to take this opportunity to express our deepest thanks to our teacher advisors: Mr. C. H. But, Mr. P. Ching, Mr. S. R. Hsieh and especially Mr. C. H. Leung, our Vice-Principal and our Principal, Rev. Brother Thomas for giving us invaluable advice. Without their support, the Mathematics Society would not be so successful and fruitful for this scholastic year.

"Twelve seconds left!"
