Student Adviser	:	Liu Shun Hong	U6C
		Wong Yik Hong, Terence	U6A
Teacher Adviser	:	Mr. Robert Ng	

The Library Society has been serving our fellow Josephians for seven years. Being a school librarian is a nice way to serve our school and school-mates. Our librarians from Form One to Form Six have always worked cooperatively in running the library and at book exhibitions. We also share responsibilities in our routine work and learn a lot of library management skills.

Sixty new members were recruited this year. This is really a surprise and they would certainly give new strength and encouragement to our society. The new recruits are divided into six groups and six committee members are chosen to be their leaders who are responsible for training them and assigning them duties according to a schedule. Apart from the routine work, various activities were organized this academic year. The 'Book Exhibition' and the 'Reading Award Scheme' were held to promote students' interest in reading. Besides, a 'Book Cover Design Competition' and a 'Summer Camp' were organized to explore students' talents and give the librarians a chance to foster their friendship.

The annual Book Exhibition held in the New Hall this year attracted many students. The exhibition, aiming at arousing students' interest in reading, provided a golden opportunity for them to buy low-priced books. With the sponsorships from 15 bookstores, more than 2500 books were displayed and some of them were even sold at a discount up to 50%. Over 1000 books were sold during the 4-day event. The large-sales volume had actually reflected the enthusiasm of the students. Despite the problems encountered in the course of preparation, the exhibition turned out to be an unprecedented success.

Following the success of the Reading Award Scheme in the previous years, the scheme this year was warmly welcomed by students. The winners of the English Report Section, Antares Au and Desmond Yap, won highly commended prizes in the Reading Award Scheme organized by the Library Section of the Education Department. We shall go on supporting the Scheme in order to encourage students to read more extensively and make better use of the library resources.

Without the assistance of the librarians, the library cannot function properly. In order to reciprocate the devotion of their time, efforts and generous help, a summer camp was specially organized for them. Everyone seemed to be satisfied and was given a present as a reward for their unfailing support to the society. To conclude, the summer camp really gave everyone an indispensable experience and a happy memory which would stay in their minds vividly.

Last but not least, we would like to express our deepest gratitude to our Principal, Rev. Bro. Thomas for his support throughout the year. We wish to thank Mrs. Pyke and Mr. Lam Wah Tong who are so kind to be the adjudicators for the Reading Award Scheme. Moreover, we would like to take this opportunity to express our gratitude and heartfelt thanks to all of you, especially to our adviser Mr. Robert Ng who has given us a lot of guidance and advice and has devoted so much time to the running of the library.

MATHEMATICS SOCIETY

		Mr. S. R. Hsieh	
		Mr. C. H. Leung	

Mathematics Society aims at arousing the students' interest in mathematics. Founded in 1991, the society has been organizing a wide range of activities to give our fellow Josephians a deeper insight in mathematics.

This year, a seasonal magazine 'Mathematics Journal' was published. The Journal was especially designed for our members and was both entertaining and educating.

Tutorial classes were organized throughout the year. Many lower form students have joined us and they showed great enthusiasm in the continuation of the programme. During the Students' Festival, we had organized a lecture about Geometry. This lecture was given by our most honourable teacher adviser, Mr. S. R. Hsieh.

In May, a Speed Test was held which received unexpected good response from the students. Meanwhile, the participants' performances were encouraging.

In this year's Joint School Mathematics Contest, our school team beat more than 30 secondary schools and came second in the group event.

Finally, we would like to express our sincere thanks to all our teacher advisers and our Principal Rev. Bro. Thomas for their invaluable help.
