

Mathematics Society

Mathematics Society, established in 1991, is one of the academic societies in SJC. In order to arouse the students' interest in mathematics and their knowledge in mathematics, a wide range of activities had been organized to give our fellow Josephians a deeper insight into mathematics.

Mathematics Society CD-Rom

As we are in the age of computer, the era of information technology, this year, we have made a big breakthrough — CD-Roms were published instead of journals. The disc contained some useful mathematics shareware that can help students in learning mathematics interactively. The disc was very popular despite the high production cost.

Tutorial Classes

Tutorial classes have been organized for a number of years. Its aim is to help lower form students with their mathematics homework. Many students have joined us and showed great enthusiasm in the continuation of the programme.

Lecture

An open lecture was held in November in the General Science Laboratory, given by our teacher adviser Mr. K.B. Ching. The lecture was about combination. Combination is a thing which always appears in our surroundings. Through the lecture, students understood that mathematics is not only just a game of numbers.

125th Anniversary Millennium Grand Open Day

On the 29th January 2000, we had set a mathematics room in the Form 2D classroom. Some mathematics software was shown and we had Mr. A. Lee to demonstrate how to use IT in teaching mathematics. Also there were some games and boards, which were funny, and the guests could learn in the same time when they played the games.

External Activities

In late May, we held a Joint-School Mathematics Quiz with Marymount Secondary School. We had some competitors from forms 1 to 2. As they

Chairman
Lau Wing Hung, Stephen L.6B
Vice-chairmen
Chan Sau Yan, Thomas L.6B
Yau Chi Hong, Samuel L.6B
Financial Secretary
Mak Ho Yin, Martin L.6B
Technical Support
Mak Pak Kei, Leo L.6B
Public Relations Officer
Ip Chi Ho, Ivan 4E
Teacher Advisers
Mr. K.B. Ching
Mr. A. Lee
Mr. Y.K. Ng

were the first time to join such a competition, they did not get any excellent result, but their performance was out of our expectation.

Conclusion

Finally, we would like to express our sincere thanks to our executive committee members, our teacher advisers and our principal Rev. Brother Thomas for their invaluable help.
